This brochure provides a brief summary of various riders and benefits offered by American National Insurance Company. The terms and conditions in the rider will control. Please read the rider carefully. All riders may not be available in all states. Riders may vary by state.

Accelerated Benefit Riders

Provides the option of receiving a partial or full accelerated life insurance benefit if the insured experiences a qualifying medical condition.

How do these riders work?

The Accelerated Benefit Riders (ABRs) are offered for no additional premium. However, the accelerated benefit payment will be less than the amount of death benefit requested because it is reduced by an amount calculated based on American National's evaluation of the insured's future expected mortality at the time the benefit is exercised as well as an administrative fee of up to \$500 assessed when the benefits are elected. See acceleration amount limitations below.

We offer three separate riders that provide for the payment of an accelerated benefit which cover the following conditions:

- **Accelerated Benefit Rider for Terminal Illness** (Policy Form Series: ABR14-TM): For use if an eligible insured has an illness or chronic condition that is expected to result in death within 12 to 24 months, depending on state definitions.
- **Accelerated Benefit Rider for Chronic Illness** (Policy Form Series: ABR14-CH): For use if an eligible insured is unable to perform two out of six activities of daily living (bathing, continence, dressing, eating, toileting, or transferring) or is cognitively impaired.
- **Accelerated Benefit Rider for Critical Illness** (Policy Form Series: ABR14-CT): For use if an eligible insured experiences a critical illness described in the rider after the issue date. Covered critical illnesses may be found in the Rider Forms.

Minimum Policy Death Benefit to Obtain Riders:

- Terminal Illness: \$25,000
- Chronic & Critical Illness: \$50,000

Maximum Death Benefit Eligible for Acceleration

- \$2,000,000 (issue ages 0-65)
- \$1,000,000 (issue ages 66+)

Policies exceeding the maximum acceleration amount will still contain the Accelerated Benefit Riders; however, the owner will only be able to accelerate up to the maximum death benefit eligible for acceleration. For example, on a

\$4,000,000 policy (where eligible), the owner will only be able to accelerate \$2,000,000 if under age 65.

There is no minimum partial acceleration request; however, the partial acceleration will not be allowed if the policy's face amount would be reduced below the minimum required for the product. The accelerated benefit may be paid in a lump sum or applied to any settlement option under the contract that does not involve life contingent payments.

Not everyone that applies for acceleration will be eligible to receive accelerated benefits.

Eligible Accelerations:

If the primary Insured suffers a qualifying medical condition, the base policy and any additional riders on the primary Insured are eligible for acceleration. Likewise, if a spouse or other Insured party suffers a qualifying condition, their specific rider benefits will also be eligible for acceleration. The Children's Term Rider is not eligible for acceleration.

Upon payment of the accelerated benefit to the owner, the policy or rider(s) providing the eligible death benefit will be treated as if the Insured has died if full acceleration is elected. In the event of a partial accelerated benefit, the policy or rider will be treated as if there has been a decrease to the face amount.

- The specified Universal Life policy may only have Death Benefit Option A
- The Rider can only be added at the time the policy is issued
- This rider is not available on all substandard rate classes.
- The Rider cannot be reinstated

The cost of this Rider is deducted from the policy's accumulation value as part of the monthly deduction. Therefore, the policy's premium must be paid and the cost of the Coverage Continuation Rider then deducted for this Rider to remain in effect.

If, after the end of the Safety Net Guarantee Period, the surrender value of the policy is insufficient to pay the monthly deduction, the policy will not lapse provided the Coverage Continuation Rider Value is positive and the policy does not

have any policy debt.

If the policy does have debt, then the Coverage Continuation Value less any policy debt must be positive for the Rider to remain in effect.

The Coverage Continuation Rider Value is based on the amount of coverage continuation net premiums paid plus interest credited to the Coverage Continuation Rider Value less the monthly charges to the Coverage Continuation Rider Value.

The Coverage Continuation Rider will terminate on the earlier of:

- the date the grace period for the policy expires, or
- the date the policy matures, expires, or is surrendered, or
